

ANATOMY OF A PATTERSON FAN

Direct Drive, Maintenance-Free Motor with Sealed Bearings
(Totally Enclosed)

Powder Coated (standard),
Galvanized or Stainless
Steel Available

Side-Vented Barrel
Design Promotes
Optimum Air Flow

Heavy Gauge
Formed Steel

Deep Venturi Inlet/Outlet
Design Creates Even Column
of Non-disturbed Air Flow

Powder Coated,
Corrosion Resistant
OSHA Compliant
Recessed Finger Guards

Blades Engineered for
Maximum Air Velocity and
Efficiently Smooth Operation

FAN MOUNTS
